<https://github.com/Zakki101> | Jakarta Timur, Indonesia

Undergraduate Informatics student currently in the 6th semester, with interests and competencies in programming, particularly in frontend web and Android development. Has experience working with SQL based databases and UI/UX design using Figma, and possesses foundational skills in programming languages such as Java and JavaScript. Familiar with development tools such as Visual Studio Code, GitHub, Figma, Android Studio, and MySQL.

EDUCATION

Universitas Pembangunan Nasional “Veteran” Jakarta - Jakarta, Indonesia 2023 - Present

Bachelor Degree in Informatics; GPA: 3.78/4.00

- **Relevant Coursework :** Database Systems, Android Development, Front End Development, Big Data, UI/UX Design.

PROJECTS & PRACTICAL EXPERIENCE

To-do List Web Using Basic Web Development Tool - Individual Project [↗](#) Sept 2025

- Developed a simple to-do list in web interface with CRUD functionality. Developed by using basic Web Development tools such as HTML, CSS Tailwind, and JavaScript.

Task List And Management Mobile App Using Android Studio - Individual Project [↗](#) Jul 2025

- Developed a simple task list Android application with full CRUD functionality, integrated with a local SQLite database for persistent data storage. Implemented task filtering and deadline management features.

Simple User Side Car Renting Mobile App Using Android Studio - Team Project [↗](#) Jun 2025

- Contributed in feature ideas during the application development process. The system includes CRUD functionality for car renting in user-side, user registration and login, rental history, all integrated with a Node.js backend and MySQL database.

Online Web Learning Management System Design Using Figma - Team Project [↗](#) Jun 2024

- Designed UI/UX for user, admin, and premium roles in a Learning Management System (LMS), featuring login and register, course management, user management, premium subscription flow, and interactive prototypes.

CERTIFICATION

- Intro to Software Engineering by RevoU [↗](#) Okt 2025
- Code Generation and Optimization Using IBM Granite by IBM [↗](#) Sept 2025
- Data Analytics by Certiport [↗](#) Des 2024
- 21st Century Employability Skills Program - Advanced by Wadhwani Foundation [↗](#) Apr 2024

SKILLS

- **Soft Skills:** Analytical Thinking, Team Collaboration, Attention to Detail.
- **Technical Skills:** Python, Java, Javascript, HTML, CSS, MYSQL, SQLite, Visual Studio Code, GitHub, Android Studio, Figma
- **Language:** Indonesia (Native), English (Intermediate)
